# Our Commitment to Early Childhood Education...

Program activities, geared to the unique developmental stage of each child, include: creative art, science, literature and language arts, music, dramatic play, field trips, and movement exploration. Children are given the opportunity to explore, experiment, discover and learn. Social skills, motor development, artistic expression and learning capacities are emphasized.

Our Experienced staff is college trained. All teachers attend workshops regularly in order to keep up with the latest trends and techniques in the education of young children. Staff members are Christian and possess a wonderful love of working with preschoolers.

Our Redeemer Preschool admits students of any race, color and national or ethnic origin to all the rights, privileges, programs, and activities generally afforded or made available to students at the school. It does not discriminate on the basis of race, color, national or ethnic origin in administration of its educational policies, admissions policies and other school administered programs.

## Our Commitment to the Christian Faith...

Our program is carried out within the Christian context of God's marvelous love. Each teacher is concerned with more than education. They are concerned with each child in a way that reflects God's love. Teachers also demonstrate the aspect of fair play, consideration, and cooperation so that values are caught as learning is taught.

## Bible Stories/Chapel Time...

Bible stories and Christian music are part of the weekly curriculum. Also bi-monthly chapel times are held where stories are told, Christian songs are sung and prayers are shared with the Pastoral Team. Discovering God's love for all people is the foundation of the chapel time themes.

## Our Purpose and Goals...

- To create an atmosphere in which children may come to know of God's love.
- To teach Christian principles through everyday experiences.
- To develop children's growth intellectually, physically, emotionally, socially and spiritually.
- To allow each child to develop at his/her own rate of maturity
- To provide a healthy, happy environment where children are free to explore and experiment in a relaxed atmosphere.
- To help each child enjoy the satisfaction of achievement in daily work through process and not products.
- To help children discover their environment by providing first hand experiences.
- To prepare children for a happy adjustment into Kindergarten.
